

Consultation on the Strategic Plan for Children and Young People 2027-2030 (NSW)

Prepared by **Dr Rory Gillard**, with input from **Michael Baker** from the Advocacy, Research and Policy Unit at the Community Restorative Centre.

What is this paper about?

This submission is about the new plan for children and young people in New South Wales (NSW).

The submission says the plan should:

- listen to the **experiences** of **young people** who have been in **prison or detention**
- support the **rights** of these young people
- think about the **needs** of young people who may be **at risk of going to prison or detention** in the future.

The submission explains **why** these young people should be **included in decision making** that affect their lives.

The submission also shares **ideas** for how NSW can better support all young people to be **safe, healthy and treated fairly**.
